

**CPMS
COLLEGE COURSES**

Accounting

ACC* 111 Principles Of Accounting I 4

Theory and practice of accounting for sole proprietorship. Original entry and general ledger; accounting equation, classification of accounts, preparation of working papers, adjusting and closing entries, and financial statements; accounting for monetary assets and inventories; introduction to plant assets, depreciation; intangible assets and amortization. As an important part of this course, the student will use computers to solve accounting problems. Formerly listed as ACCT 105, not open to students who have successfully completed ACCT 105. Prerequisite: MAT* 094, MAT* 095 or appropriate Mathematics Placement Test score.

ACC* 112 Principles Of Accounting II 4

A continuation of ACT* 111. This course presents fundamental accounting theory for partnerships and corporations with an emphasis on financial statement analysis and cash flow. Practice in accounting procedures and review of accounting principles. As an important part of this course, the student will use computers to solve accounting problems. Formerly listed as ACCT 106, not open to students who have successfully completed ACCT 106. Prerequisite: ACT* 111 or equivalent.

Anthropology

ANT* 101 Introduction TO Anthropology 3

Introduction to major fields of anthropology (physical, cultural, etc.) with special emphasis on the understanding of human heritage in relation to history, culture, and environment. Formerly listed as ANTH 101, not open to students who have successfully completed ANTH 101.

ART

ART* 100 Art Appreciation 4

An introduction to the broad spectrum of the visual arts, past and present. Emphasis is upon the visual language employed by artists and the historical and cultural significance of works of art. Formerly listed as ART 100, not open to students who have successfully completed ART 100.

ART* 101 Art History I 3

A survey of the development of art and architecture from prehistoric times through the fourteenth century. Formerly listed as ART 101, not open to students who have successfully completed ART 102.

Art* 102 Art History II 3

A survey of the development of art and architecture from the fifteenth century to the present. Formerly listed as ART 102, not open to students who have successfully completed ART 120.

ART* 111 Drawing I 3

Investigation into line, form, composition and depth. Expression, structure, and perspective will be studied, using a variety of materials. Half of the semester will involve the use of the life model, with study of anatomy, foreshortening,

action, and sustained poses. Formerly listed as ART 120, not open to students who have successfully completed ART 120.

ART* 112 Drawing II 3

Continuation of Drawing I, with emphasis on further development, observation, and use of media and technique. Formerly listed as ART 120, not open to students who have successfully completed ART 120.

ART* 208 Caribbean Art and Culture 3

An exploration of the aesthetic and instrumental values of Caribbean Art and cultural history. The course will trace the artistic and intellectual responses to a wide range of issues and characteristics unique to the diverse Caribbean region. An open invitation to experience the art process. Formerly listed as ART 299, not open to students who have successfully completed ART 299, Caribbean Art and culture.

Biological Sciences

BIO* 105 Introduction TO Biology 4

Concepts in biology, with emphasis on cell theory, metabolism, evolution, and ecology. Three hours of lecture per week and two hours of laboratory per week. Formerly listed as BIO 101, not open to students who have successfully completed BIO 101.

Prerequisites: MAT* 075 or sufficient mathematics placement score for entry into MAT* 094 MAT* 095.

1. Level II score on reading placement test or successful completion of ENG* 003.
2. Level II score on writing placement test or successful completion of ENG* 013. The alternate prerequisite is a grade of B- or better in ENG* 1534. (ENG* 153A is ESL level IV).

BIO* 111 Introduction To Nutrition 3

Introductory course, including nutritional requirements of the body, nutrient interrelationships, major nutritional problems, and the selection of adequate diets for different age groups. Formerly listed as BIO 150, not open to students who have successfully completed BIO 150. Prerequisite: 1) Level II score on writing placement test or successful completion of ENG* 003. 2.) Level II score on writing placement test or successful completion of ENG* 013. The alternate prerequisite is a grade of B- or better in ENG* 135A. (ENG* 153A is ESL Level IV).

BIO* 115 Human Biology 4

Introductory course in human anatomy and physiology with brief consideration of the structure, histology, and functioning of the organ systems. Three hours of lecture and two hours of laboratory per week. Formerly listed as BIO 105, not open to students who have successfully completed BIO 105.

Prerequisite:

1. Level II score on reading placement test or successful completion of ENG* 003.
2. Level II score on writing placement test or successful completion of ENG* 013. The alternate

prerequisite is a grade of B- or better in ENG* 153A. (ENG* 153A is ESL level IV.) Cannot be used to satisfy the requirements of Nursing degree curriculum.

BIO* 211 Anatomy And Physiology 4

Basic course in human biology stressing chemical and physical principles governing body structure and function. Study includes organization movement, neural control and integration. Three hours of lecture and two hours of laboratory per week. Formerly listed as BIO* 211 or permission of the Department Chair.

BBG* 231 Business Law I 3

This course includes a study the origin and nature of American Law; business/ Legal ethics; the U.S. and the Bill Of Rights as it affects both individual liberties and business conduct. Topics include structure of the court system and civil and criminal procedures; administrative law procedures; international trade law, substantive criminal law, including white collar crimes; tort law, contract law, and product liability. Formerly listed as BLAW 101, not open to students who have successfully completed BLAW 101.

BBG*232 Business Law II 3

Principle focus is on the law of negotiable instruments, business organizations (partnerships and corporations), securities, property, trust and estates. Formerly listed as BLAW 102, not open to students who have successfully completed BLAW 102. Prerequisite: BBG* 231.

Business- Entrepreneurship

BES* 107 Small Business Management 3

Introduction to the fundamentals of management finance. Following an overview of financial management, business organization and taxes, institutions and interest rates, and financial markets, this course concentrates on time value of money, bond and stock values, risk and rates of return, analysis of financial statements, cost of capital and capital budgeting. A research paper will be assigned. The use of internet in gathering financial information for this paper and other relevant financial topics will be discussed. Formerly listed as FIN 101, not open to students who have successfully completed FIN 101. Prerequisite: ACT* 111 or equivalent, a co-requisite of ACT*112 or equivalent, or permission of instructor.

Business – Management

BMG* 202 Principles Of Management 3

The fundamentals of management and the operation of organizations. Emphasis is placed on management orientation, planning, organizing, motivating, and controlling. The student is exposed to the ever- changing tools required for decision- making. The course should equip students to function in and understand the management area. Formerly listed as MGMT 101, not open to students who have successfully completed MGMT 101.

Business – Marketing

BMK* 103 Principles Of Retailing 3

An introductory study. Store location and layout, product and service mix, store security, pricing, and promotion methods are examined. Formerly listed as MKT 110, not open to students who have successfully completed MKT 110. Prerequisite: BMK* 201.

BMK* 201 Principles of Marketing 3

An introductory study of how organizations market their products and services. The course examines how marketing management within a firm creates and implements a marketing strategy. The students will learn how to identify the satisfy individual and organizational needs. Formerly listed as MKT 101, not open students who have successfully completed MKT 101.

College Success Course

IDS* 105 College Success Course 3

This course focuses on skills essentials for college success taught in the context of a particular academic issue or theme. Work will be organized around texts and materials chosen by instructor. (Interdisciplinary Studies: Introduction to Pre-Nursing will introduce the Pre-Nursing to the learning strategies necessary for higher level academic and clinical work in the Associate Degree Nursing Program.)

Communication & Speech

COM* 173 Public Speaking 3

Basic instruction in public speaking with emphasis on improvement through practice exercises, gathering material, organization and delivery of speeches of varied lengths and types, and evaluative listening. Formerly listed as ENG 203 (Effective Speech), not open to students who have successfully completed ENG 203. Prerequisite: ENG* 101.

Criminal Justice

CJS* 101 Introduction To Criminal Justice 3

This course will introduce the student to the criminal justice system, starting with a definition and description of crime. The course will also explore the causes of crime in a free society. A historical analysis of the criminal justice system at local, state and federal levels. Formerly listed as Law 101, not open to students who have successfully completed LAW 101.

Economics

ECN* 101 Principles Of Macroeconomics 3

Basic survey course emphasizing Microeconomics. Topics include the pricing system as an allocation model, the internal dynamic of the business cycle, the effects of capital deepening and technology on productivity and real wages, monetary theory and the effects of domestic polices and programs. Formerly listed as ECON 201, not open to students who have successfully completed ECON 201. Prerequisite: MAT* 095 or Math Placement Test.

ECN* 102 Principles Of Microeconomics 3

Basic survey course emphasizing Microeconomics. Topics include elasticity, productivity and cost relationships, pricing and employment of productive inputs, and the microeconomic foundations of economic growth. A study of the structure, conduct and performance of different markets.

Formerly listed as ECON 202, not open to student who have successfully completed ECON 202. Prerequisite: MAT* 095 or Math Placement Test.

English

ENG* 101 Composition 3

Required for all degree programs; to be completed within the first 15 credits. Study of writing and the writing process.

Students analyze expository and/or literary works and prepare essays with attention to unity, organization, support, and development. Formerly listed as ENG 101, not open to students who have successfully completed ENG 01.

Prerequisite: a) Level III scores on both writing and reading placement test; or b) successful completion of ENG*043. In unusual situations, students who show outstanding promise in either ENG*013 or ESL*153A may, upon the recommendation of the ENG*013 or ESL*153A teacher and the approval of the department chair, be granted a written waiver of the ENG*043 prerequisite.

ENG*102 Literature And Composition 3

Reading in drama, poetry, short stories, novels, plus a study of commonly used literary terms and practice in expository writing based upon the readings. Some sections of this course may be thematically focused. Formerly listed as ENG102, not open to students who have successfully completed ENG102. Prerequisite: ENG*101.

ENG*107 English Composition Portfolio 3

Study of writing and the writing process. Students analyze expository and/or literary work and prepare essay with attention to unity, organization, support, and development. Essays from the basis for a portfolio, which will be read by a panel for credit assignment. Students whose portfolios meet the college's English Composition standard will be give 3 credits and will have completed the English Composition requirement for graduation. Students whose portfolios indicate the need for further work will be give no credit and a grade indicating whether they have met prerequisites for entry into a standard ENG*101 course. Formerly listed as ENG107, not open to students who have successfully completed ENG107. Prerequisite: a) Level II or III scores on both writing and reading placement tests; or b) successful completion of ENG* 013 & ENG*003; or c) a grade of B- or better in ESL*153A; or d) successful completion of ENG*043.

CIS* 120 Police And The Community 3

This course will examine interaction between the police and the community, with special emphasis on community tensions, building relationships, juveniles, gangs, minority groups, corruption, prejudice, discrimination and the issue of diversity in the police organization. Formerly listed as LAW 105. Prerequisite: CJS* 101.

CJS* 202 Juvenile Delinquency 3

This course will explore and define the emerging components of juvenile justice in the United States. Topics will include the history of and philosophy of juvenile justice, the processing of youthful offenders, the detention of juveniles, the diversion of youths from juvenile justice system

and whispered use of drugs and alcohol by America's adolescents. Formerly listed as LAW 102, not open to students who have successfully completed LAW 102. Prerequisite: SOC* 101.

CJS* 210 Constitutional Law 3

This course will introduce the student to legal reasoning and provide understanding of the workings of the Federal system of justice. The focus will be on Supreme Court cases and the powers of the executive, legislative and judicial branches of government. Formerly listed as LAW 104, not open to students who have successfully completed LAW 104.

Early Childhood Education

ECE*101 Introduction TO Early Childhood Education 3

History and philosophy of early childhood programs. Criteria for establishing and evaluating developmentally appropriate early childhood programs are considered. Students visit local child care settings. Formerly listed as EDU 220, not open to students who have successfully completed EDUC 230. (Fall only)

ECE* 103 Creative Experiences/ Children 3

The relationship of creative art to the total education program of the young child is explored. Students will experiment with media such as paint, clay, collage, etc. Students will plan and present developmentally appropriate art activities to preschool children at the Laboratory School. Formerly listed as EDUC 230, not open to students who have successfully completed EDUC 230. (Fall only)

ENG* 211 Short Story 3

Exploration of the techniques of the modern short story and the story-telling tradition, with some works read in transition. Formerly listed as ENG 273, not open to students who have successfully completed ENG 273. Prerequisite: ENG* 102.

ENG* 213 Poetry 3

Close examination of 20th century British and American poetry. Formerly listed as ENG 268, not open to students who have successfully completed ENG 268. Prerequisite: ENG* 102.

Foreign Languages-French

FRE* 101 Elementary French 3

Introduction to fundamentals of French grammar with emphasis on the development of listening, speaking, reading and writing skills. Formerly listed as FREN 101, not open to students who have successfully completed FREN 102. Prerequisite: FRE* 102 or equivalent.

FRE* 102 Elementary French II 3

A continuation of elementary French I. Further development of basic oral and writing proficiency. Formerly listed as FREN 102, not open to students who have successfully completed FREN 102, not open to students who have successfully completed FREN 102. Prerequisite: FRE* 102 or equivalent.

FRE* 201 Intermediate French I 3
Introduction to advanced grammar and structure to further develop reading, writing and speaking skills. Formerly listed as FREN 210, not open to students who have successfully completed FREN 201. Prerequisite: FRE* 102 or equivalent.

FRE* 202 Intermediate French II 3
A continuation of Intermediate French I. Further development of oral and writing proficiency. Formerly listed as FREN 201, not open to students who have successfully completed FREN 201. Prerequisite: FRE* 201 or equivalent.

Foreign Languages-Italian
ITA* 101 Elementary Italian I 3
Introduction to fundamentals of Italian grammar with emphasis on the development of listening, speaking, reading and writing skills. Formerly listed as ITAL 101, not open to students who have successfully completed ITAL 101.

ITA* 102 Elementary Italian II 3
Continuation of Elementary Italian I. Further development of basic oral and writing proficiency. Formerly listed as ITAL 102, not open to students who have successfully completed ITAL 102. Prerequisite: ITA* 101 or equivalent.

Foreign Languages-Spanish
SPA* 101 Elementary Spanish I 3
Introduction to fundamentals of Spanish grammar, with emphasis on the development of listening, speaking, reading and writing skills. Formerly listed as SPAN 101, not open to students who have successfully completed SPAN 101.

SPA* 102 Elementary Spanish II 3
A continuation of Elementary Spanish I. Further development of basic oral and writing proficiency. Formerly listed as SPAN 102, not open to students who have successfully completed SPAN 102. Prerequisite: SPA* 101 or equivalent.

SPA* 210 Spanish For Medical Personnel 3
Designed for medical personnel. Emphasis is placed on spoken Spanish in daily medical situations. Formerly listed as SPAN 105, not open to students who have successfully completed SPAN 105. Prerequisite: SPA* 101 or equivalent.

SPA* 202 Intermediate Spanish I 3
Introduction to advanced grammar and structure to further develop reading, writing and speaking skills. Formerly listed as SPAN 201, not open to students who have successfully completed SPAN 201. Prerequisite: SPA* 102 or equivalent.

SPA* 202 Intermediate Spanish II 3
Continuation of Intermediate Spanish I. Further development of oral and writing proficiency through readings and discussions. Formerly listed as SPAN 202, not open to students who have successfully completed SPAN 202. Prerequisite: SPA* 201 or equivalent.

History
HIS*101 Western Civilization I 3
Ancient Egypt, the Near East, Classical Greece and Rome, and the Western world to 1660 are studied. Emphasis is placed on the contributions of these civilizations to the development of contemporary thought and institutions. Formerly listed as HIST101, not open to students who have successfully completed HIST101. Corequisite: NG*043.

HIS* 110 20th Century Latin American/ Caribbean Political Movements 3
This course will provide a through historical overview of the most significant 20th century Latin American and Caribbean political movements within a specific historical context. The course will study each movement, political platforms, its leaders, its ideology and the socio-economic conditions of the country at the time. Formerly listed as HIST 299, not open to students who have successfully completed HIST 299.

HIS*121 World Civilization I 3
A survey of the major ancient and classical civilizations, with emphasis on the foundations for a global economy, up to 1500. Formerly listed as HIST105, not open to students who have successfully completed HIST105.

HIS* 122 World Civilization II 3
A survey of the major civilizations of modern times, with emphasis on the foundations for global economy, up to 1500. Formerly listed as HIST 106, not open to students who have successfully completed HIST 106.

HIS*201 U.S. History I 3
Survey of the colonial and revolutionary eras, followed by an examination of basic nineteenth-century problems such as slavery, sectionalism, and the Civil War. Formerly listed as HIST103, not open to students who have successfully completed HIST103. Corequisite: ENG*043.

HIS*202 U.S History II 3
Institutions and force at work in the United States since the Civil War, with emphasis on the historical background of contemporary political, social and economic problems. Formerly listed as HIST104, not open to students who have successfully completed HIST104. Corequisite: ENG*043.

HIS* 216 African American History I 3
Black Americans: A review of their ancient African background, their enslavement, their contributions to Western civilization and America, and their struggles for freedom in North America up to the civil War period. Formerly listed as HIST 239, not open to students who have successfully completed HIST 239.

HIS* 217 African American History II 3
This course will examine the history of African Americans since the end of slavery in 1865. It will focus on the many ways in which African Americans have struggled to achieve freedom and equality in American society. The various meanings of freedom, segregation, migration patterns, urbanization, Black Nationalism, leadership protest

strategies, and the Civil Rights Movement will be explored. The course will also examine how the search for civil rights and fashion. Formerly listed as HIST 240, not open to students who have successfully completed HIST 240.

Mathematics

MAT* 137 Intermediate Algebra 3

Topics include set, polynomials, fractions, exponents, roots and radicals, linear equations, quadratic equations, relations and functions, conics, and system of equations. This course will include use of a graphing calculator TI-83TM. Formerly listed as MATH 131, not open to students who have successfully completed MATH 131. Prerequisite: MAT* 095 or Mathematics Placement Test. (Fall and Spring)

MAT* 256 Calculus 4

Course includes functions, limits and continuity, derivatives and their applications, definite integrals, applications of definite integrals to area and motion, concept of differential equations, logarithmic, trigonometric and exponential functions. This Course requires use of graphing calculator TI-83TM and many include use of computer software package. Formerly listed as MATH 151, not open to students who have successfully completed MATH 151. Prerequisite: MAT* 186 with permission of the instructor.

MAT*181 Statistics Technology 3

The descriptive methods studied include the concept of population versus sample, frequency distributions, measures of central tendency, measure of dispersion, probability, and probability distributions. The inferential methods presented involve hypothesis testing, point and interval estimation, correlation and regression, analysis of variance. This course requires use of a graphing calculator TI-83TM. This course may include use of a computer-based statistical package. Formerly listed as MATH124, not open to students who have successfully completed MATH124. Prerequisite: MAT*137 Intermediate Algebra. (Fall and Spring)

MAT*254 Calculus II 4

Course includes functions, limits and continuity, derivatives and their applications, definite integrals, applications of definite integrals to area and motion, concept of differential equations, logarithmic, trigonometric and exponential functions. This course requires use of a graphing Calculator TI-83TM and may include use of a computer software package. Formerly listed as MATH151, not open to students who have successfully completed MATH151. Prerequisite: MAT*186 with permission of the instructor.

MUSIC

MUS*101 Music History & Appreciation I 3

A foundation for intelligent and appreciative listening through knowledge of the characteristics, media, and structure of music, major choral and instrumental work, musical styles, interpretation, and the principles of aesthetics. Lectures, discussion, recordings and attendance at live performances are employed. Formerly listed as MUS101, not open to students who have successfully completed MUS101.

MUS* 102 Music History & Appreciation II 3

Development of music beginning with the classical and continuing through the Romantic eras and the twentieth century. Formerly listed as MUS 202, not open to students who have successfully completed MUS 202.

PHILOSOPHY

PHL*101 Introduction To Philosophy 3

This course is designed to introduce to the nature of philosophical questions/problems and their place in human life. We will examine fundamental questions about the nature of reality, knowledge, and happiness posed by philosophers from different periods in the history of philosophy. Authors will include some of the following: Plato, Aristotle, Augustine, Aquinas, Descartes, and Kierkegaard. Through the reading and discussion of philosophical authors, the course also aims to help cultivate important skills of critical reasoning and a richer self-understanding and view of life. Formerly listed as PHIL101, not open to students who have successfully completed PHIL101.

PHIL* 111 Ethics 3

Introduction to the major ethical systems in Western philosophy and to current moral language, moral decision, and selected contemporary problems in ethics. Formerly listed as PHIL 130, not open to students who have successfully completed PHIL 130.

Physical Sciences-Chemistry

CHE* 111 Concept Of Chemistry 4

Basic principles governing chemical changes. Topic include atomic structure, chemical building, stoichiometry, states of matter and solution chemistry. Three hours of lecture and two hours of laboratory per week. Formerly listed as CHEM 121, not open to students who have successfully completed CHEM 121. Prerequisite: MAT* 095 or Mathematics Placement Test. (Fall and Spring)

CHE* 121 General Chemistry I 4

The fundamental laws and principles of chemistry. Elements, compounds, mixtures, atomic structure, the periodic table, chemical bonding, gas laws and thermochemistry are key subjects. Emphasis is placed on the mole concept in basic chemical calculations. Three hours of lecture and three hours of laboratory per week. Formerly listed as CHEM 121. Corequisite: MAT8 137. (Fall only)

Political Science

POL*101 Intro To Political Science 3

General survey of the field of political science, with emphasis on politics, political systems, and political behavior. Analysis of institutions and processes involved in the making of public policy is included. Formerly listed as PLSC101, not open to students who have successfully completed PLS 101.

Psychology

PSY* 105 Group Dynamics 3

Theoretical basis of group behavior, including focus on the distinction between content and process variables. Task and maintenance functions of group members are explored.

Other topics include concepts of group membership, conformity and deviancy pressure, styles of leadership, and group problem solving

PSY*111 General Psychology I 3

Introduction to the basic concepts and methods of psychology. Primary emphasis is placed on the scientific study of human behavior. Topics include: basic physiological processes underlying behavior; stress, health and adjustment; and social psychology. Formerly listed as PSY101, not open to students who have successfully completed PSY101. Corequisite: ENG*043.

PSY*112 General Psychology II 3

A continuation of PSY*111, PSY*112 includes the following topics: sensation and perception; language, thought and intelligence; developmental psychology; personality theory and measurement; abnormal behavior; methods of therapy; sex roles and sexual behavior; and statistics for psychology. Formerly listed as PSY102, not open to students who have successfully completed PSY102 Prerequisite: PSY*11.

PSY* 204 Child And Adolescent Development 3

Development of the child from conception through adolescence, with focus on physical, cognitive, social and emotional growth. Both hereditary and environmental influence are considered. Formerly listed as PSY232, not open to students who have successfully completed PSY232. Prerequisite: PSY*111 recommended, Corequisite: ENG*043.

PYS* 208 PSY. OF Adult Development And Aging

A study of behavior dynamics and developmental processes from young adulthood through old age. The physical, cognitive, and psychosocial aspects of aging are studied. Formerly listed as PSY232, not open to students who have successfully completed PSY233. Prerequisite: PSY*111 recommended, corequisite: ENG*043.

SOCIOLOGY

SOC*101 Principles Of Sociology 3

Basic sociology principles as they apply to culture, personality, group structures, and major social institutions. Formerly listed as SOC101, not open to students who have successfully Completed SOC 101. Corequisite: ENG*043.

SOC* 117 Minorities In The U.S. 3

Attention is paid to the history, social conditions, and ideology of prominent minority groups in order to better understand the dynamics of contemporary intergroup relations. Formerly listed as SOC 232, not open to students who have successfully completed SOC 232.

SOC* 201 Contemporary Social Issues 3

Systematic analysis of selected social problems that pertain to contemporary American social structure, with emphasis upon sociological concepts and theories. Race relations, urbanization, crime, population, drug addiction, and the welfare state. Formerly listed as SOC 202, not open to students who have successfully completed SOC 202. Prerequisite: SOC* 101.
